

I listen to K-LOVE radio every morning and evening going to and from work. It puts me in a proper frame of mind for my hectic day...and helps me to recover at the end of the day...at least five days a week.

It brings people together in knowing there are others of like minded-ness nearby and it only brings out the good and love in people. We NEED a radio station like that in our community.

With so much negative stuff on TV...even the news...it is important that there be a positive radio station that lifts us up and gives us hope every day without our having to censor our ears and our families from it.

Please let K-LOVE be and don't remove it from us. thanks.
